

EYEGLASS CASE from Family Fun Magazine

For eyeglass missions

Need:

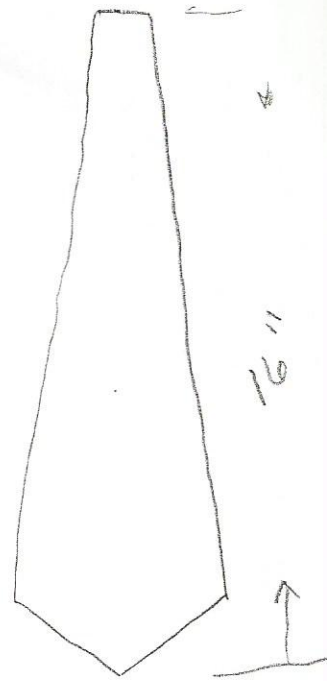

Necktie

Waxed paper

Tacky glue

Scissors

Large snap fastener and needle and thread or Velcro dot

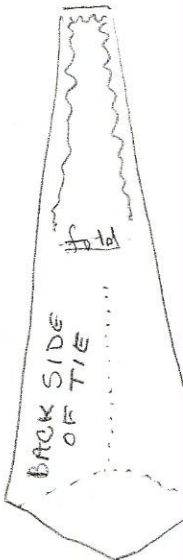

Cut off large end of necktie so it is 16" long

Snip any inside threads so you can insert your hand (eyeglasses) without obstruction

Slip a piece of waxed paper inside tie about 8" long and width of tie

Run a line of glue along both sides for about 6-7" from cut end and across cut end

glue

Fold up glued sides to unglued sides folding cut end under. On wide ties cut end may be glued inside opening.

Cover with a larger piece of waxed paper and a book or something for weight while glue dries. Remove wax paper from inside tie.

Folding point of tie over for a flap, sew on a snap or a Velcro dot. A few stitches around Velcro dot will make it more secure.

x = snap
